Current Economic Indicators
November 2006
Highlights

Labour Force: In October, Alberta's unemployment rate declined to a 30-year low of 3.0%. The drop in the unemployment rate was the result of 22,600 jobs being created in October. At the same time, the number of unemployed declined to the lowest level since 1981. Over the past 12 months, the number of people employed in Alberta grew sharply by 6.1% or by 108,600. These employment gains were solely the result of full-time jobs created. The largest employment gains over the past year have been in the *construction*, *educational services*, and *manufacturing* industries.

Consumer Spending: In August, Alberta retail sales increased strongly by 18.1% from the same month last year, to a record $4.9 billion. During the first eight months of 2006, retail sales were up 16.9%, compared to the same period last year. Retail sales gains have been broad based with the largest advances registered by *gasoline service stations* and *motor and recreational vehicle dealers*. In the first three quarters, the number of MLS home re-sales rose by 13.8% and the total value of the homes traded jumped by 47.7%. Over the same period, the number of new automobile sales advanced by 12.4%. In September, prices paid by Alberta consumers for goods and services comprising the Consumer Price Index (CPI) increased by 3.7%, compared to the same month last year. This was lower than the 4.7% price advance registered in the previous month.

Construction: Alberta urban housing starts fell by 12.4% in October, compared to October 2005. On a year-to-date basis, housing starts were up by 17.9% from the same period last year, to a high of 33,830. Canadian housing starts advanced by 1.3% over the same period. In September, the value of building permits climbed sharply by 66.9% from the same month last year to a record $1.3 billion. In the first three quarters, total building permit values grew strongly by 38.0%, compared to the same period last year. Nationally, building permits increased by 9.5%.

Manufacturing: The value of manufacturing shipments grew by 4.5% in September, compared to the same month last year. In the first three quarters, manufacturing shipments were 10.6% higher than in the same period last year – the fastest growth rate in Canada. The largest shipment gains were noted for *chemicals & chemical products*, *machinery* and *metal fabricating*.

Exports: The value of Alberta merchandise exports decreased by 9.6% in September, compared to the same month last year, in large part due to lower natural gas prices. In the first three quarters of 2006, exports were 10.1% higher than in the first nine months of last year. Large export gains were noted for *energy products*, *industrial goods* and *agricultural products*. On a national basis, merchandise exports were up 2.6% over the same period.

Incorporations/Bankruptcies: In October, business incorporations were up 15.9% from the same month last year. For the January to October period, the number of business incorporations grew by 23.4% from the first ten months of 2005, to a record 40,542. In September, the number of business bankruptcies dropped by 56.6% and consumer bankruptcies by 36.1%, compared to the same month last year. In the first three quarters, the number of business and consumer bankruptcies had respective declines of 30.4% and 44.7%, compared to the same period last year.
